

Monk fruit extract and Mogroside V

Hengliyuan supplies monk fruit extract for food and beverage development and ingredient sourcing. Our catalog includes a Mogroside V 50% sample option, with other 20–60% grade requirements discussed by project.

Product form	Monk fruit extract / mogroside ingredient
Catalog sample option	Mogroside V 50%; selected batch specification to be confirmed
Other grade requests	Mogroside V 20–60% grades discussed by project
Catalog packing options	100 g sample, 1 kg pilot and 25 kg bulk; confirm the offered pack

Choose the extract specification

Mogroside V and total mogrosides are different measurements. Match the named analyte, assay method and content basis when comparing offers. Our catalog lists 100 g sample, 1 kg pilot and 25 kg bulk packing options; the offered pack and batch specification are confirmed with your request.

Factory and product documents

Specifications, batch COA and applicable factory/product documents are available for discussion with the selected grade.
